

CDI subject index, 2004

A

ACIR

See: Childhood immunisation coverage

Acute flaccid paralysis

See: *Poliomyelitis*

Adverse events following immunisation

age-related risk of adverse events following yellow fever vaccination in Australia; 244–248

surveillance of adverse events following immunisation

Australia, 2002 to 2003; 324–338

for children aged less than 7 years, 1 January to 30 June 2004; 490–492

AIDS

See: *HIV and AIDS*

Alphaviruses

See: *Vectorborne diseases*

Annual report

See: *Individual surveillance programs*

Anthrax

overseas briefs; 308

surveillance report; 56

See also: *Communicable diseases surveillance tables*

Antibiotic

resistance

Passive surveillance of antimicrobial resistance in Queensland public hospitals: the basis for a national system?; 230–235

See: *Gonococcal infections*

See: *Meningococcal infections*

susceptibility

ceftriaxone; 117, 298, 424

penicillin; 116, 298, 423

quinolone; 117, 299, 424

spectinomycin; 298, 424

tetracycline resistant *Neisseria gonorrhoeae*; 117, 299, 424

Arbovirus infection

surveillance report; 52

See also: *Barmah Forest virus, Kunjin virus infection, Japanese encephalitis, malaria, Murray Valley encephalitis, Ross River virus*

ASPREN

See: *Australian Sentinel Practice Research Network*

Australian bat lyssavirus

overseas briefs; 124, 434

surveillance report; 56, 64

trends in potential exposure to Australian bat lyssavirus in South East Queensland, 1996 to 2003; 258–260

Australian Childhood Immunisation Register
See: Childhood immunisation coverage

Australian encephalitis
See: Sentinel Chicken Surveillance Programme

Australian Gonococcal Surveillance Programme
 annual report, 2003; 187–193
 quarterly reports; 116–117, 298–299, 423–424, 547–548
 surveillance systems reported in CDI; 100–101

Australian Meningococcal Surveillance Programme
 annual report, 2003; 194–206
 quarterly reports; 299–300, 424–425, 548–549

Australian National Creutzfeldt–Jakob Disease Registry
 surveillance report; 356–358

Australian National Poliovirus Reference Laboratory
 annual report, 2003; 339–344

Australian National University Scholarships; 279

Australian Paediatric Surveillance Unit
 communicable disease conditions, 1 January to 30 June 2004; 529–531
 surveillance report; 90–91, 300, 425, 529–531
 surveillance systems reported in CDI; 101

Australian Rotavirus Surveillance Programme
 report, 2003–2004; 481–485

Australian Sentinel Practice Research Network;
 123–124
 surveillance report; 65, 115, 295, 420, 544
 surveillance systems reported in CDI; 99

Australia's notifiable diseases status annual report
See: National Notifiable Diseases Surveillance System

Avian influenza
See: influenza

B

Barmah Forest virus
 surveillance report; 51–52
See also: Communicable diseases surveillance tables

Bloodborne disease
 surveillance report; 26–30, 281–282
See also: Communicable diseases surveillance tables, hepatitis B, hepatitis C, HIV/AIDS

Botulism
 surveillance report; 30
See also: Communicable diseases surveillance tables

Bovine spongiform encephalopathy
 overseas briefs; 123, 436
See also: Creutzfeldt–Jakob disease

Brucellosis
 surveillance report; 56
See also: Communicable diseases surveillance tables

C

Campylobacter
See: Campylobacteriosis

Campylobacteriosis
 surveillance report; 31, 103
See also: Communicable diseases surveillance tables

Chlamydia
See: Chlamydial infection

Chlamydial infection
 surveillance report; 37–40, 409
See also: Communicable diseases surveillance tables

Chickenpox
See: Varicella

Childhood immunisation coverage
 acceptance of three simultaneous vaccine infections recommended at 12 months of age; 493–496
 impact of *Haemophilus influenzae* type b (Hib) vaccination on Hib meningitis in children in Far North Queensland, 1989 to 2003; 255–257
 planning for human papillomavirus vaccines in Australia; 249–254
 surveillance reports; 50, 115, 119–120, 296–297, 421, 545–546
 surveillance systems reported in CDI; 102
 what do we know about 7vPCV coverage in Aboriginal and Torres Strait Islander children?; 238–243

Cholera
 overseas briefs; 307
 surveillance report; 282, 409, 532
See also: Communicable diseases surveillance tables

Communicable Diseases Intelligence
 editorial; 1–5

errata; 347, 553–558

highlights

See: *Communicable diseases surveillance*

instructions for authors; 95–97

letter to the editor

was the egg a plausible source for the *Salmonella* Potsdam outbreak?; 236–237

response to letter to the editor: *Salmonella* Potsdam and eggs; 237

surveillance systems reported in CDI; 98–102

Communicable Diseases Network Australia reports; 277–278, 406–407, 489

Communicable diseases surveillance highlights; 103–105, 281–285, 408–410, 531–534

See: *National Notifiable Diseases Surveillance System*

See also: *individual surveillance schemes*

Creutzfeldt-Jakob disease

variant Creutzfeldt-Jakob disease

overseas briefs; 124, 306, 433, 558–561, 559–562

Cryptosporidiosis

surveillance report; 31–32, 282

See also: *Communicable diseases surveillance tables*

Cytomegalovirus

surveillance report, 300, 426, 531

D

Dengue

overseas briefs; 309

surveillance report; 53, 104, 283–284

See also: *Communicable diseases surveillance tables*

Diphtheria

surveillance report; 45, Suppl 2: S7–S9

See also: *Communicable diseases surveillance tables*

Donovanosis

surveillance report; 40

See also: *Communicable diseases surveillance tables*

E

Encephalitis

Australian

See: *Sentinel Chicken Surveillance Programme*

See also: *Japanese encephalitis, Kunjin virus, Murray Valley encephalitis*

Enteroviruses

See: *poliomyelitis*

F

Festschrift for Professor Margaret Burgess AO; 349–355

Flavivirus

surveillance report; 409

See: *Sentinel Chicken Surveillance Programme*

See also: *Vectorborne diseases, Dengue, Kunjin virus, Japanese encephalitis, Murray Valley encephalitis*

Foodborne disease

fish, so foul! foodborne illness caused by combined fish histamine and wax ester poisoning; 83–85

outbreaks in Australia, 1995 to 2000; 211–224

overseas briefs; 432

See also: *OzFoodNet*

See also: *Salmonellosis*

G

Gastroenteritis

surveillance report; 115, 295, 420, 544

See: *Gastrointestinal diseases*

Gastrointestinal diseases

surveillance report; 30–37, 103, 282, 408–409, 531–532

See also: *Communicable diseases surveillance tables, botulism, campylobacteriosis, cryptosporidiosis, haemolytic uraemic syndrome, hepatitis A, listeriosis, rotavirus, salmonellosis, shiga-like-toxin and verotoxin producing E. coli infections, shigellosis, typhoid*

Gonococcal infection

surveillance report; 41–43

See also: *Communicable diseases surveillance tables*

Gonorrhoea

See: *Gonococcal infection*

H

- Haemolytic uraemic syndrome
surveillance report; 36, 408
See also: Communicable diseases surveillance tables
- Haemophilus influenzae* type b
surveillance report; 45, Suppl 1: S12–13, Suppl 2: S9–13
See also: Communicable diseases surveillance tables
- Haemorrhagic fever
See: viral Haemorrhagic fever
- Hepatitis A
a multi-jurisdictional outbreak of hepatitis A related to a youth camp—implications for catering operations and mass gatherings; 521–527
overseas briefs; 431
surveillance report; 32–33, 531, Suppl 1: S14–16, Suppl 2: S14–17
See also: Communicable diseases surveillance tables
- Hepatitis B
surveillance report; 26–28, 392, 281–282, Suppl 1: S17–19, Suppl 2: S18–S22
See also: Communicable diseases surveillance tables
- Hepatitis C
overseas briefs; 307
prevalence—a nationwide serosurvey; 517–521
surveillance report; 28–30, 281–282, 300, 426, 532–533
See also: Communicable diseases surveillance tables
- Hepatitis D
surveillance report; 30
See: Communicable diseases surveillance tables
- Hepatitis E
overseas briefs; 559
surveillance report; 33, 282, 408
See also: Communicable diseases surveillance tables
- Herpes simplex virus
surveillance report; 300, 426, 532

- HIV and AIDS
surveillance reports; 300, 532
surveillance systems reported in CDI; 99–100

- Human pituitary hormone
See: Creutzfeldt–Jakob disease

I

- Immunisation
See: childhood immunisation coverage
Infection control guidelines for the prevention of transmission of infectious diseases in the health care setting; 159
- Influenza
A associated morbidity and mortality in a Paediatric Intensive Care Unit; 504–508
antiviral prophylaxis in the management of an influenza outbreak in an aged care facility; 396–400
ASPREN data
See: Australian Sentinel Practitioner Research Network
avian
overseas briefs; 123, 305, 435, 559
Cost of seasonal respiratory illnesses in Australian children: the dominance of patient and family costs and implications for vaccine use; 509–516
laboratory-confirmed
surveillance reports; 45–46, 169–174, 175–180, 295, 420, 532–533, 544, Suppl 1: S20–S21, Suppl 2: S23–S26
LabVISE data
See: Virology and Serology Laboratory Reporting Scheme
National Influenza Surveillance Scheme
annual report; 160–168
surveillance systems reported in CDI; 100
uptake of influenza vaccine among Aboriginal and Torres Strait Island adults in north Queensland, 2003; 80–82
See also: Communicable diseases surveillance tables
- Invasive meningococcal infections
See: Meningococcal infections
- Invasive pneumococcal disease
See: Pneumococcal disease

J

Japanese encephalitis
surveillance report; 54, 284
See also: Communicable diseases surveillance tables

K

Kunjin virus infection
surveillance report; 54
See also: Sentinel Chicken Surveillance Programme
See also: Communicable diseases surveillance tables

L

Legionellosis
surveillance report; 59–60, 285
See also: Communicable diseases surveillance tables

Leprosy
surveillance report; 60
See also: Communicable diseases surveillance tables

Leptospirosis
surveillance report; 57
See also: Communicable diseases surveillance tables

Listeriosis
surveillance report; 33, 532
See also: Communicable diseases surveillance tables

Lyssavirus
See: Communicable diseases surveillance tables

M

Malaria
overseas briefs; 560
surveillance report; 54–55
See also: Communicable diseases surveillance tables

Measles
surveillance report; 46, 103, 282, 409, 532,
Suppl 1: S22–S23, Suppl 2: S27–S31
See also: Communicable diseases surveillance tables

Melioidosis
overseas briefs; 559

Meningococcal infections
a family cluster of serogroup C meningococcal disease; 496–498
an outbreak of meningococcal disease in a secondary school—implications for public health practice; 345–346
changes to the management of meningococcal disease in Australia; 278
surveillance reports; 61–62, 105, 285, 409–410, 533–534, Suppl 1: S24–S25, Suppl 2: S32–S35
See also: Communicable diseases surveillance tables

Mumps
overseas briefs; 124
surveillance report; 47, Suppl 2: S36–S40
See also: Communicable diseases surveillance tables

Murray Valley encephalitis virus
surveillance report; 284
See also: Sentinel Chicken Surveillance Programme
See also: Communicable diseases surveillance tables

N

National Centre for Immunisation Research and Surveillance of Vaccine Preventable Diseases; 92–95, Suppl 1: S1–S44, Suppl 2: S1–S114

National Centre in HIV Epidemiology and Clinical Research
role of the National Centre in HIV Epidemiology and Clinical Research in surveillance for HIV/AIDS, viral hepatitis and sexually transmissible infections in Australia; 273–276
quarterly reports; 117–118, 301–302, 425–427, 549–550

National Enteric Pathogens Surveillance System
surveillance reports; 121–122, 302–303, 427–429, 550–552
surveillance systems reported in CDI; 101–102

National Influenza Surveillance Scheme
See: Influenza

National Notifiable Diseases Surveillance System
annual report, 2002; 6–68
evaluation; 311
surveillance systems reported in CDI; 98–99

tables; 106–111, 286–291, 411–417, 535–540
 See also: *Communicable Diseases Surveillance*

Neisseria gonorrhoea
 See: *Gonococcal infection*

Neisseria meningitidis
 See: *Meningococcal infection*

Nipah virus
 overseas briefs; 431

Notifiable diseases
 See: *Communicable Diseases Surveillance*
 See also: *National Notifiable Diseases Surveillance Scheme*

O

Ornithosis
 surveillance report; 58, 105, 284
 See: *Communicable diseases surveillance tables*

Other bacterial infections
 surveillance report; 59–63, 105, 285, 533–534

Outbreak
 foodborne diseases; 211–224
 hepatitis A; 521–527
 influenza; 396–400
 meningococcal disease; 345–347
Salmonella Singapore; 527–528
Salmonella Potsdam; 236–237
 shigellosis; 225–229

Overseas briefs; 123–125, 305–309, 430–437

OzFoodNet
 annual report, 2003; 359–389
 quarterly surveillance report; 86–89, 207–210, 401–405, 485–488
 surveillance systems reported in CDI; 102

P

Pertussis
 surveillance report; 47–48, 104, 283, 533, Suppl 1: S26–S28, Suppl 2: S41–S45
 See also: *Communicable diseases surveillance tables*

Plague
 See: *Communicable diseases surveillance tables*

Plasmodium spp.
 See: *Malaria*

Pneumococcal disease
 laboratory report, 2003; 455–463
 surveillance report; 48–49, 441–454. Suppl 1: S20–S21, S29–S31, Suppl 2: S46–S50
 See: *Communicable diseases surveillance tables*

Poliomyelitis
 overseas briefs; 430, 561–562
 surveillance; 49, 426, Suppl 2: S51–S52
 See also: *Australian National Poliovirus Reference Laboratory*
 See also: *Communicable diseases surveillance tables*

Q

Q fever
 surveillance report; 58–59
 See also: *Communicable diseases surveillance tables*

Quarantinable diseases
 surveillance report; 37, 282, 532
 See also: *Cholera, plague, yellow fever*

R

Rabies
 See: *Communicable diseases surveillance tables*

Ross River virus
 surveillance report; 51–53, 104, 261–266, 284
 See also: *Communicable diseases surveillance tables*

Rubella
 interruption of transmission; 69–74
 surveillance report; 49, 300, 426, 532, Suppl 2: S53–S57
 top end rural and remote Indigenous women: an Australian population group vulnerable to rubella; 499–503
 See also: *Communicable diseases surveillance tables*

S

Salmonellosis
 outbreak of *Salmonella* Singapore associated with eating sushi; 527–528

overseas briefs; 561
 surveillance report; 34–36, 103, 121–122,
 303–304, 428–429, 551–552
*See: National Enteric Pathogens Surveillance
 System*
*See also: Communicable diseases surveillance
 tables*
See also: OzFoodNet

Sentinel Chicken Surveillance Programme
 surveillance systems reported in CDI; 100

Serology

Kunjin virus
*See: Kunjin virus; Sentinel Chicken
 Surveillance Programme*
 Murray Valley encephalitis virus
*See: Murray Valley encephalitis; Sentinel
 Chicken Surveillance Programme*

Sexually transmitted infections
 surveillance report; 37–45, 409–410
*See also: Chlamydial infection; communicable
 diseases surveillance tables, donovanosis,
 gonococcal infection, syphilis*

Severe acute respiratory syndrome
 overseas briefs; 123, 305, 433
 SARS in Australia; 181–186

Shiga-like-toxin producing *E. coli* verotoxigenic
 infections
 risk factors for sporadic human infection with
 shiga toxin-producing *Escherichia coli* in South
 Australia; 74–79
 surveillance report; 36, 282, 390–391
*See also: Communicable diseases surveillance
 tables*

Shigellosis
 an outbreak of shigellosis in a child care centre;
 225–229
 surveillance report; 36
*See also: Communicable diseases surveillance
 tables*

Shingles
 surveillance report; 295, 420, 544

SLTEC
*See: Shiga-like-toxin and verotoxin producing
 E. coli infections*

Smallpox
 overseas briefs; 308

Surveillance
See: Communicable Diseases Surveillance

Surveillance reports
See: individual surveillance reports
*See also: Communicable Diseases
 Surveillance*

Syphilis
 surveillance report; 43–45
*See also: Communicable diseases surveillance
 tables*

T

Tetanus
 overseas briefs; 124
 surveillance report; 49, Suppl 2: S58–60
*See also: Communicable diseases surveillance
 tables*

Transmissible spongiform encephalopathies
See: Creutzfeldt–Jakob disease

Travellers
 Follow-up of communicable diseases reported
 among travellers on aeroplanes; 270–271

Tuberculosis
 laboratory report, 2003; 474–481
 notifications, 2003; 464–473
 overseas briefs; 125
 surveillance report; 63, 534
*See also: Communicable diseases surveillance
 tables*

Typhoid
 overseas briefs; 429
 surveillance report; 37, 408

Typhus, scrub
 in the Northern Territory: exceeding the
 boundaries of Litchfield National Park; 267–
 269
*See also: Communicable diseases surveillance
 tables*

U

V

Vaccination
See: Childhood Immunisation coverage

Vaccine preventable diseases
 surveillance report; 45–50, 103, 127–159,
 282–283, 409, 532–533

See also: Diphtheria, Haemophilus influenzae type b, influenza, pneumococcal disease, measles, mumps, pertussis, poliomyelitis, rubella, tetanus

Variant Creutzfeldt–Jakob disease
See: Creutzfeldt–Jakob disease

Varicella
 surveillance report; 115, 295, 420, 544

Vectorborne diseases
 surveillance report; 51–56, 104, 283
See also: Alphaviruses, Flaviviruses, Arbovirus infection, Barmah Forest virus infection, dengue, Japanese encephalitis, Kunjin virus infection, malaria, Murray Valley encephalitis, Ross River virus infection

Viral haemorrhagic fever
 Ebola haemorrhagic fever
 overseas briefs; 125
See: Communicable diseases surveillance tables

Virology and Serology Laboratory Reporting Scheme
 data tables; 112–114, 292–294, 417–419, 541–543
 surveillance report; 63, 410
 surveillance systems reported in CDI; 101

VTEC
See: Shiga–like–toxin and verotoxin producing E. coli infections

W

Waterborne disease
 overseas briefs; 432

World Health Organization
 Western Pacific Region
See: gonococcal infection

World Organisation for Animal Health
 overseas briefs; 432

Y

Yellow fever
See: Communicable diseases surveillance tables

Z

Zoonoses
 surveillance report; 56–59, 61–65, 105
See also: Anthrax, brucellosis, leptospirosis, Q fever

Zoster
See: Varicella
